

Capstone Project

by Aleks Kudryashova (Pedagogy Fellow, *Germanic Languages and Literatures*)

Challenges

- ❑ No shared **database**; lack of continuity and coordination between different G-years
- ❑ Disconnect between **TFs and TAs** teaching for different programs
- ❑ Departmental/internal **resources** unavailable to (new) students; no space to collect useful external resources on one platform
- ❑ Need for a **GLL 'hub'** to build and maintain a sense of **community** and continuity within the program

Solutions & Goals for the Future

- ✓ Creating and maintaining a **new Canvas platform** for orientation purposes and ongoing support
- ✓ Building a **departmental archive** with all the necessary resources and links related to pedagogy, teacher training, and professional development
- ✓ The website's outline also functions as a catalog of (potential) areas and duties **future PFs** can focus on
- ✓ Simple **design** open to new **functions** and responsive to new challenges

What does the Canvas page contain?

- ✓ **Welcome** message and brief orientation
- ✓ Links to previous and upcoming **orientation workshops** and related resources
- ✓ Collection of **resources** for SLA (Second Language Acquisition), both in **F2F and remote environment**
- ✓ Links to other resources and the **Bok Center** portal(s)
- ✓ Information about **technology** and troubleshooting
- ✓ TF/TA **testimonials** from previous courses
- ✓ Collection of resources from previous **professional development workshops**
- ✓ [In development] **Grants and funding** page – what to keep in mind when applying for jobs and fellowships
